The Supreme Court handed down a decision this morning in the matter of Harry T. Mills vs. J. D. Mendonca, affirming the judgment of the Circuit Judge of \$30 for the plaintiff. Mills, of course, was the assignee of the claim, the original claimant being Sun Wah Kee, who demanded \$35 as the value of a horse killed by the defendant.

ORATORY HEARD

(Continued from Page 1)

That the amount of \$6000 be appropriated for new cottages for lepers.

That the meat ration be increased from seven to ten pounds a week.

That the goods at the store be sold at reasonable prices.

That each patient receive 70 cents worth of groceries from the store a week besides the palat ration.

That a law be enacted authorizing the Governor to appoint a commission agent to introduce merchandise of all descriptions into the settlement and be paid a reasonable salary as may be fixed from time to time.

That an appropriation of \$2500 be made for supplying the lepers with stationery.

That an appropriation of \$6000 be made for roads in the County of Kalawao.

That \$400 be appropriated for the landing at Kalaupapa.

That \$15,000 be appropriated for water works for the settlement.

That the stipend of the assistant superintendent, J. K. Waiamau, be raised to \$150 a month.

\$1.50 for Road Laborers.

The expected storm over the question of whether a road laborer should get his present \$1.25, the \$1.50 that Nakaleka thinks he should have, or the \$2 a day that Kama wants to give him failed to materialize—or, at most, it was only a mild little tempest.

The Miscellaneous Committee had reported in favor of Nakaleka's bill, but Kama had submitted a minority report, recommending that the figure \$2 be substituted for Nakaleka's meagre little \$1.50.

Coney moved that the minority report be tabled—and to the astonishment of everybody, this was done with out even the shadow of a debate. The majority report was adopted.

Kaniho Objects.

Castro's bill, No. 16, to exempt from the payment of poll, road and school taxes any man having six or more legitimate children under the age of 18 years in his care and maintenance, if his annual income is not in excess of \$600, did not meet with the unqualified approval of Kaniho, and when it came up for third reading he proceeded to say so. But Kaniho's eloquence fell on stony hearts. His motion to postpone indefinitely was killed and the bill passed by a vote of 25 to 5, Kaniho voicing a most vociferous "no."

Makakau's House Bill 27, entitling in two the price of the Revised Laws, making the figure \$5 a volume, instead of the present \$10, passed the House by unanimous vote.

To Redistrict Territory.

The bill over which the House struggled in Committee of the Whole last Friday, introduced by Waiwaiole and known as House Bill 37, to make the taxation, educational and judicial districts the same, passed without debate.

That Sewer Bill.

PETERSBURG, Russia, Feb. 28.—The Russian Government, answering Servia's note assuring Russia that a desire for peace actuates the Servians, advises Servia to abandon the demands made upon Austria for territorial compensation for the forced annexation of the provinces of Bosnia and Herzegovina, and to await the decision of the Powers over the questions at issue in the Balkans. These demands, if pressed, will be a certain cause for war, and are on that account not favored by the Powers.

MEXICO'S AMBASSADOR

WASHINGTON, D. C., Feb. 27.—Senor Delabarra, the new Mexican Ambassador, presented his credentials today.

to compel the payment of sewer rates until the sewer rates and penalties shall have been paid in full, drew forth a mild objection from Kaniho.

Kalelopu defended the measure. Long moved that consideration of it be postponed to March 8. This motion carried and the debate was shut off for the time being.

Another Law.

A communication from the Secretary of the Territory was read, informing the House that the Governor signed Joint Resolution 1, (House Joint Resolution 2) providing for the appointment of a commission to investigate and examine into the fruit and truck growing industry in the Territory and the handling and disposal of the products derived therefrom.

The Foxxy Affonso.

Affonso was ready this morning with a much-sighed petition from Puna asking for a \$3000 court house at 12 miles, Olua. And Affonso backed up the petition with a resolution providing for the appropriation of \$3000 for a court house at Olua, \$1500 for a four-cell jail and \$750 for a jailer's cottage at the same place. This was accompanied with the explanation that the inclusion of Olua and Keau in the Puna district makes it absolutely necessary to provide a court house, etc., for Olua and Keau.

Committee Reports.

The Public Lands Committee reported on House Bill 1, presented by Kealawa, asking for an appropriation of \$10,000 for a homestead road to open up the Waiwili homesteads. The committee was of the opinion that something should be done for the homestead owners of that locality, and recommended that the item be laid on the table for consideration with the appropriation bill.

The same recommendation was made in regard to House Bill 2, for a \$6000 appropriation for the building of a government road from Lakoula to Laialaewi, South Hilo.

Affonso's Bill.

Affonso introduced a bill to make the abduction of a girl under 14 conclusively presumed to be by force and without her consent and against her will.

The Agricultural Committee, reporting on House Bill 7, by Affonso, "to encourage the cultivation of fruit and vegetables and provide for the transportation of the same from this Territory to the mainland of the United States of America," by authorizing the Governor to enter into a transportation contract for 10 years, recommended that the bill be tabled and that a copy of it be transmitted to the special fruit and vegetable commission to be appointed by the Governor under House Joint Resolution 2.

The committee did not find itself equal to dealing with Affonso's coffee encouragement bill, to exempt coffee land from taxation, and recommended that the Judiciary Committee be given a chance to see what it could do with the bill. The report was adopted.

Would Break the Territory.

A Democrat is responsible for the bill introduced to give to the counties all fines and costs collected in the district courts. The Territory doesn't

need any money anyway, notwithstanding all the roads, jails and schools the members intend to make appropriations for.

Second Reading.

House Bills 61, 74, 77, and 79 passed second reading and were referred to committee.

The House adjourned at 11:20, to meet in joint session at 2 o'clock with the Senate for a public hearing on the matter of the conservation of natural resources. Among those scheduled to speak at the joint session are Governor Frazier and ex-Governor Carter.

Increasing Localization.

Rice, just before the House took its recess, introduced three administration measures, the general intent of which is to turn over to the counties the court houses, district and county jails and hospitals to maintain, taking this care out of the province of the Territory.

DID BALL DIE BY HIS OWN HAND?

James Sherwin Ball, an Englishman, who has been employed by J. B. Castle as chauffeur for the past twelve months, was found dead this morning in his dressing room in the basement of the Castle home.

A thirty-eight calibre revolver was lying by the body, and Dr. McDonald, who was called up, probed the wound, which was in the right temple, and extracted a bullet that corresponded with the size of the revolver.

Ball was employed in New York before coming to Hawaii. He was a well put up man of good physique, and was about 44 years of age.

It appears that about 6:20 o'clock this morning a gun-shot was heard by several people about the house. Some of the family thought it was caused by a fire blowing out, but the Chinese cook on looking into the basement room, was terrified at seeing Ball lying on the floor with blood oozing from his head.

The deceased has been somewhat dependent of late, and to that cause may probably be attributed the tragedy. An inquest will be held tonight.

CARTER FUNERAL

The funeral services over the remains of the late J. O. Carter will be held next Sunday afternoon in the Central Union Church. It is likely that Dr. Scudder and Rev. H. H. Parker of the Kawaiaha Church will have charge of the services. The exact time for the services and the names of the pall-bearers will be announced later.

WHAT IT MEANS

That the Supervisors have no right to appoint or employ workmen in the road department is the gist of the decision handed down by the Supreme Court this morning in the City and County test case. What else the decision decides, no one seems to know.

That the men who have been working on the roads for the past two months were illegally appointed, and therefore not entitled to any money, is practically settled by the decision, but whether or not the men named by the Mayor, and who have passed the last two months in industrious idleness, will get their pay, is another matter.

"The decision seems to decide very little," said County Attorney Cathcart this morning. "It infers that employing must be done by the heads of the different departments. But where are the departments? It denies the right of the Supervisors to make appointments, fast enough."

County Attorney Cathcart and Deputy County Attorney Milverton have the matter under consideration, but are not prepared to say what their next action will be. They insinuate that the matter stands just about where it did before the decision was handed down, however.

Treasurer Trent is upheld in the stand that he has taken, namely, that he had a right to refuse to pay illegal warrants. But what warrants are illegal, and what makes them illegal, and how they are to be made legal, is a matter over which there seems to be a great difference of opinion.

That the decision is adverse to the Supervisors is admitted, but in whose favor it is, is considered another matter. That the Supervisors cannot appoint is decided, but whether or not the Mayor can appoint with out the sanction of the Supervisors is a question which is left open.

THE OIL SHIP Fullerton, Captain Castley, arrived this forenoon from San Francisco with 13,000 barrels of oil, which she is pumping out at the railroad wharf this afternoon. Her trip down was uneventful. She will leave for the Coast as soon as her cargo of oil has been pumped out.
